Rockwell, Robert, Linda Gormezano, and Daryll Hedman. 2008. Grizzly Bears, *Ursus arctos*, in Wapusk National Park, northeastern Manitoba. *Canadian Field-Naturalist* 122(4): 323-326.

We report on nine sightings of Grizzly Bears (*Ursus arctos*) in northeastern Manitoba in what is now Wapusk National Park. Although biological research in the region has been conducted regularly since 1965, all sightings have been made since 1996. The Grizzly Bears were seen either along rivers known to harbor fish or in an area known for berries.

Key Words: Grizzly Bear, *Ursus arctos*, Wapusk National Park, Manitoba, Canada.
